

## CHILDREN'S BOOKS BY NATALIE JANE PRIOR

Because many of these titles were published by Hodder Headline/Hachette, which closed its Australian children's list down in April 2006, quite a few of them are now out of print, but are still readily available in libraries. A few of the out of print titles are still available directly from Natalie: contact her direct with any queries at [njpenquiries@mac.com](mailto:njpenquiries@mac.com). (This list comprises Australian publications only. Many of the books are also available in foreign editions.)
